## See a Need—Fill a Need

In the animated movie "Robots" distributed by 20th Century Fox the young robot Rodney Copperbottom aspires to become an inventor after listening to the advice given by Bigweld, chief inventor and owner of Bigweld industries, on his television program. The advice that he gives young inventors is to not just tinker, but to "see a need" and "fill a need."

We are not robots, inventors, and you may not be young anymore, but the advice Bigweld gave all the young inventors (and to Rodney Copperbottom) should stand for members of the church, as well. I hope that you when you see needs (and there are needs aplenty) that you work toward filling those needs. PLEASE do not wait for someone else to lead the effort...see a need—fill a need!

- Is there a lost soul in need of the gospel? You do not need to wait for permission from an elder or for someone else to lead the way, share it with them!
- Is there a work that needs started? Start it!

What needs does this church (not the building necessarily, the body) have? Think about how to do see to that need and fill it!

~Daniel
